

The Nutrition Program administers the Child and Adult Care Food Program (CACFP) and the Summer Food Service Program (SFSP). CACFP is a federally funded program that reimburses providers for serving nutritious meals to children or adults in a day care environment. Providers include child care learning centers, group day care homes, adult care centers, emergency shelters, family day care homes, and after-school programs.

To locate Providers on the Nutrition Food Program, please go to [Nutrition Provider Search](#) web page.
